

AT&T's Global Network

AT&T has the best global coverage of any U.S. wireless provider* with **calling and texting available in over 225 countries and territories** and **discounted data coverage in almost 200 countries and territories**, including **LTE speeds in over 100 countries and territories**.

International Coverage and Data Centers

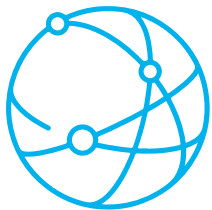

- AT&T has the **broadest international voice coverage** of any U.S. carrier.
- The network includes **36 internet data centers** across the globe.

Coverage for Travelers

- AT&T was the **first U.S. carrier to offer international LTE data** for travelers abroad.
- **Wired Ethernet access (hotels) in 39 countries and territories** via 400+ access points.

AT&T Global Network Services

- AT&T offers connections for customers on the **one of the world's most powerful and advanced IP/Multiprotocol Label Switching (MPLS) networks**.
- Our network uses **Global System for Mobile communications (GSM)**. This is the standard which most of the world's wireless services use.
- We provide access to more than **1 million Hot Spots around the world**** at popular locations such as restaurants, bookstores, hotels, and more.

*Global coverage claim based on offering discounted voice and data roaming, LTE roaming, and voice roaming in more countries than any other U.S. based carrier. International service required. Coverage not available in all areas. Coverage may vary per country and be limited/restricted in some countries.

**Hot Spots are available to AT&T Passport customers through agreements with other carriers.
